GitHub: github.com/Priyansh-Dixit-Coder | LinkedIn: linkedin.com/in/priyansh-dixit-704bb4279/

PROFILE

Computer Science student and aspiring developer with an interest in programming, web development and practical technology solutions. Enjoys learning new technologies, building projects and teaching or helping others understand technical concepts. Focused on continuously improving programming, development and problem-solving skills.

EDUCATION

B.Tech – Computer Science & Engineering (Core)

SAP ID: 590021860

Batch 5

UPES

TECHNICAL SKILLS

Programming: C, Python, DSA in C

Web: HTML5, CSS3, JavaScript

Tools: Git, GitHub

Core Strengths: Problem Solving, Logical Thinking, Project Development

PROJECTS

Hostel Management System | C

Console-based application for managing student hostel records. Supports adding, viewing, searching, updating and deleting student records, including room, phone and fee information. Uses structures and binary file handling for persistent storage.

Driver Drowsiness Detection System | Python, OpenCV, Twilio

Real-time webcam-based monitoring system that detects faces and eyes using OpenCV Haar Cascade classifiers. Identifies possible drowsiness, triggers an audio alarm, and can send an SMS alert with a Google Maps location link through Twilio. Displays status, sleep time and FPS during monitoring.

To-Do List Web App | HTML, CSS, JavaScript

Responsive task-management web application designed for adding, editing, completing and deleting tasks, with browser local storage for persistent task data.

ADDITIONAL INTERESTS

Web Development • Programming • Technology Learning • Teaching & Knowledge Sharing
